

## Professional Summary

---

After having to quit a formation in a mechanical engineering School for personal reasons, I pivoted to one of my passions: bicycles. I have had the opportunity to develop skills in sales and in mechanic repair and maintenance. However, after 2 years in this field, as I reached a plateau in terms of technical skills, I decided to initiate a conversion to the job of web developer. I have had interest for IT for a long time but I didn't make the choice to pursue a career in this field earlier. Therefore, I started self-teaching me the web languages, building small projects, do an internship in a start-up as a back-end developer in order to validate my project and then to pursue an intensive formation, focused on practice, in PHP.

## Work History

---

**Internship** as a back-end developer in the startup **LearnEnjoy** - 2024

- Development of a function allowing certain users of the app to receive a mail containing relevant data.

**Various jobs as a bicycle salesman/mechanic** – 2020/2023

- Bicycle and accessories sales
- Bicycle repairs and maintenance

**Internship as a test engineer at Bosch/BMW/General Motors**

- Usage of specific monitoring tools to test new software features implemented on the car prototypes
- Problem solving regarding the tools used and the tests
- Optimisation of the test procedure and reduction of the time needed per test

## Skills

---

- |  |   |
|--|---|
| • Algorithmic thinking                         | • Ability to deal with stressful situations |
| • Very good adaptability and learning capacity | • Proactive behaviour                       |
| • Rigorous                                     | • Good listening ability                    |
| • Quick response to critics                    | • Sense of time management and efficiency   |

## Technical stack

---

- |                       |               |
|-----------------------|---------------|
| • HTML/CSS/Javascript | • PHP/Symfony |
| • SQL                 | • WAMP/LAMP   |
| • Git/GitHub          | • Bootstrap   |

## Education & Professional Qualification

---

- 2022: **Bicycle Technician Certificate**, CFA de Bordeaux
- 2017 – 2019: Engineering School **Supméca Paris** (unfinished)
- 2015-2016: **Preparatory classes (Math/Physic/Engineering Science)**, Lycée La Salle Saint-Charles (Saint-Pierre, La Réunion)
- 2015: **Scientific "Baccalauréat"** obtained with the best rate of my High School.

## Languages

---

**French** – Mother Language

**English** - Fluent

**German** – Some notions
